

Northern Masters Athletic Club – AGM – September 2026

Chair's Report

First and foremost, Northern Masters Athletic Club exists for the '*furtherance and promotion of amateur athletics at Masters levels and to provide opportunities for athletes to compete against their peers*'

Based on this definition in our constitution, I hope you agree that 2026 has been a success.

Our club has organised and promoted several events across track, field, road and off-road athletic competitions, serving around 500 masters athletes across the North of England.

Because of the geographical spread, we are not a club who can easily meet every week. However, we hope that the calendar of events give a frequent enough chance to catch-up with old friends and competitors and create a sense of community within the club.

You, the athletes, continue to inspire and give reasons to be proud when pulling on the NMAC vest. It's easy to forget that as years advance, often making the start line can be a success and must never be taken for granted!

2026 has continue to see NMAC members who push the boundaries of what is possible in Masters' Athletics. Across the year there have been some incredible performances, including Club, National and World Records in multiple age groups.

Of course, the club need people who can make things happen, and we are lucky to have a dedicated committee, team captains and race organisers who all volunteer to keep the club running and events happening – on behalf of all our members, I give thanks to these wonderful people who generously give their time. The committee are always looking for fresh ideas and people who can help further the club, so please make it known if you can assist in anyway.

The Treasurer's Report shows the club is run in a responsible way, which still stays true to its members in providing excellent value for the membership fee.

Finally, thank you for being a member of this great club as it enters it's 49th year. Athletes are at the heart of NMAC and the Committee hope you are enjoying being a member and getting the most you can from the club.

Whatever your athletic aims for 2027, on behalf of the Committee, we hope you achieve them and look forward to seeing you across the year.

Luke Dixon,

Chair NMAC
